Advertising formats

- The formats are united in the groups and types standardized by IAB (Interactive Advertising Bureau) and are in conformity with the recommendations of Better Ads Coalition.
- Upon planning the Total rotation with a base price for 1 000 impressions, the respective combination of Desktop and Mobile formats should be submitted.
- Detailed technical specifications of the formats are published at info.netinfocompany.bg

Price for 1 000 impressions

- The base price for 1 000 impressions refers to the respective format broadcast in its full rotation, in all sites, desktop and mobile traffic.
- The rotation does not guarantee allocation by site or traffic type.

Targeting indexation

- In case of Total rotation, desktop and mobile traffic, including all sites within the Net Info portfolio, there is no surcharge for fixing the daily frequency. For all other targeting criteria, surcharge applies to fixing the daily frequency for the duration of the campaign.
- In case of a combination of two or more targeting criteria, the respective indexes are added up, following which the total sum is applied to the gross price for 1 000 impressions.

Inapplicability

With regard to the services Programmatic DSP purchasing, AdWise purchasing and professional digital services (described in part III), the discounts, indexation and other rules in the other sections of this rate card shall not apply, unless explicitly stated otherwise.

I. GENERAL PROVISIONS

Advertising forms of Net Info EAD, UIC 202632567 (Net Info) can be purchased by advertising agencies and advertisers by signing a business agreement with a guarantee for investing a specific budget.

Internet advertising of Net Info can be purchased in the following formats: Video Formats, Standard Formats, Special Formats, Alternative Formats, Integrated Offerings (PR and branded content), Programmatic, AdWise and Professional Digital Services.

Net Info forms the price of its advertising inventory based on the data provided by the current Advertising Ad Server of Net Info.

If Net Info, at its own discretion, adds a new internet site to its portfolio, then this Rate card shall apply with regard to broadcasting advertising formats therein, which shall not affect the prices specified.

1. Sales methodology

The advertising inventory of Net Info shall be purchased based on the price of an impression for the respective internet site according to the official prices set by Net Info. All purchase conditions are published on the corporate site of Net Info info.netinfocompany.bg. Net Info offers the following options for targeting (positioning) of Standard Internet Advertising:

1.1 Standard positioning

Positioning of advertising formats in desktop and mobile versions of the internet sites, managed by Net Info on a campaign basis, without pre-approved allocation of the impressions and without a guarantee for positioning in a particular site.

1.2 Desktop positioning

Positioning of advertising formats only in desktop versions of the internet sites, managed by Net Info, without pre-approved allocation of the impression and without a guarantee for positioning in a particular site.

1.3 Mobile positioning

Positioning of advertising formats only in mobile versions of the internet sites, managed by Net Info, without pre-approved allocation of the impression and without a guarantee for positioning in a particular site.

1.4 Settlement-based positioning (geo-targeting)

Positioning of advertising formats depending on the settlement, where the particular user is located.

1.5 Positioning based on gender

Positioning of advertising formats depending on the gender of the particular user. Applicable for purchasing of advertising in ABV.bg or in Total Rotation.

1.6 Positioning based on age

Positioning of advertising formats depending on the age of the particular user. Applicable for purchasing of advertising in ABV.bg or in Total Rotation.

1.7 Positioning based on time slot

Positioning of advertising formats at selected hours of the day.

1.8 Positioning based on repeatability (daily frequency)

Positioning of advertising formats based on a unique cookie per day, for a particular type of Standard Internet Advertising.

1.9 Verticals based on content

Positioning of advertising formats based on a specific type of content – news, sports, etc., without pre-approved allocation of the impressions and without a guarantee for positioning in a particular site.

1.10 Selection of DMP audience

Positioning of advertising formats before users included in a specific behavioural segment, formed by DMP (data management platform) technologies used by Net Info. No pre-approved allocation of the impressions is applied and there is no guarantee for positioning in a particular site.

1.11 Re-targeting

Net Info allows for re-targeting through all advertising formats included in this Advertising Rate card. Re-targeting of users is ensured through different methods, described in the Terms and Conditions for purchasing re-targeted advertising.

1.12 Selection of a particular site

Positioning of advertising formats in a particular site from the Net Info portfolio.

1.13 Viewability Rate

Net Info provides an option for purchasing advertising inventory with guaranteed Viewability. The standards of Internet Advertising Bureau (IAB) are applicable to the service. The conditions for implementation are described in the Terms and Conditions for purchasing guaranteed viewability.

1.14 Selection of operating system or device

Positioning of advertising formats depending on the type and/or operating system of the user's device. Positioning can be implemented in all advertising formats applicable to the respective device.

1.15 Joint advertising

Including more than one brand in the advertising formats – logo, product or mentioning another company.

1.16 Purchasing with Programmatic Direct

Purchasing of advertising inventory of Net Info through an automated purchasing system (DSP), managed by the advertiser through the infrastructure for programmatic sale managed by Net Info (SSP). Only deals of the Direct Deal

type entered into directly between the two parties shall be recognised as realized volume. In this type of deals the inventory is sold at the prices according to the price list of Net Info.

2. Standard Internet Advertising

2.1 Video Formats

The video model constitutes broadcasting of video spots, whereas for the purposes of this Rate card the advertising agencies and advertisers can purchase any of the following forms:

- 2.1.1 Targeted video – broadcasting of pre-roll, post-roll and mid-roll (in the player VBox7, nova play and the sites from the Net Info portfolio), aimed at a particular audience and differentiated in two ways:
 - 2.1.1.1. Targeting of target groups based on gender and age – Broadcast in Total Rotation in Net Info, without an option for selection of a particular site.
 - 2.1.1.2. Targeting based on a specific channel - Includes broadcasting of video spots in a particular video platform and channel of Net Info and targeting of a specific audience.
- 2.1.2 Non-targeted video - Broadcasting of a standard video advertising not aimed at a particular audience.
- 2.1.3 The prices of video pre-roll, post-roll and mid-roll formats (in the player VBox7, nova play and the sites from the Net Info portfolio) refers to video spot duration of up to 60 seconds.

2.2 Standard Formats

The model constitutes purchasing of standard desktop and mobile formats, part of the advertising formats of Net Info, as specified in this Rate card.

2.3 Rich Formats

The model constitutes purchasing of non-standard desktop and mobile formats, part of the advertising formats of Net Info, as specified in this Rate card.

2.4 Alternative Formats

Net Info offers the following alternative advertising formats:

2.4.1 Forms of presence in video content in 7Talents productions:

- 2.4.1.1. Product placement (PP) – form of non-traditional business communication, whereby the product/brand/service is naturally included in the storyline of the production and forms a part of the planned program schedule. The presence can have various degrees of intensity – audio or visual, background or interacting with the environment, where it is placed. The listed prices are valid for duration up to 30", and cover product/brand/service integration in an already developed scene/episode, in the volume and scope that is ordinary for the respective production. The listed prices do not include any remuneration for performers.
- 2.4.1.2. Product video (PV) – extraordinary (beyond the ordinary programming) episode, where in a suitable themed channel the qualities and properties of the product/service are explained. Depending on the case, this may be a demo, review, unboxing or other action that objectively reveals the advantages of

the product/service. The ordinary duration of PV is around 4 minutes. The price listed for PV includes the development of a storyline and production costs in a scope not exceeding the ordinary scope for the respective channel. The listed prices do not include any remuneration for performers.

2.4.2 Forms of presence with graphical branding of video content in 7Talents productions: The forms described in this section are offered for sale as part of a package with a minimum amount of BGN 10,000 (after discounts) and must include product placement, product videos or other form of presence in the content:

2.4.2.1. Sponsor insert – a brief video form with duration up to 7 seconds, at the discretion of the sponsor, which shall be placed at the end and/or at the start and end of the video and become an integral part thereof.

2.4.2.2 Integrated branding in the graphical package of the production – integration of an element (logo, color, key word) from the identity of the advertiser/product in the package (only “entrance” or “entrance and intermedia”) of a series, whereas this shall not divert the emphasis away from the product, but rather supplement the intimation created by the graphical package.

2.4.2.3. Co-branded frame of a video – Thumbnail – branding through a frame/logo in stop-frame, which illustrates the video before it is played – this is the picture that is visualized wherever the video is uploaded or shared, regardless of the platform, and becomes an integral part of it.

3. Integrated offerings, PR and branded content

Net Info offers preparation of the following types of integrated offerings:

3.1.1. Paid publications: The content is presented by the advertiser or developed upon its request. Net Info shall not undertake a commitment or impose any position or presence.

3.1.2. Joint materials: Net Info undertakes a commitment for editorial presentation of a product, service, event, etc. The content is developed jointly with the advertiser.

3.1.3. Positioning within context: Positioning within specialized editorial content, based on a topic selected by the advertiser. The presence is in independent squares and other formats arranged within the material.

Net Info reserves the right, in the case of very specific projects that make the processes more difficult, to charge additional costs upon coordination with the advertising agency/advertiser.

4. Internet Advertising Services

4.1. Programmatic
